

Standard Data Elements for Federal Facility Identification (Draft)
05/06/2003

The Federal Facility Identification Data Standard provides a consistent means of identifying facilities that are owned or operated by the Federal Government. The data standard consists of data elements and their permissible values that indicate a facility (or the land it occupies) is owned or operated by the Federal government. Also included is information about the Federal agency or organization that is responsible for the facility or land. The role or management relationship of the responsible party to the facility or land may also be specified.

<i>Relationships to External Standards</i>				
The Federal Facility Data Standard is related to the Facility Identification Data Standard. The data elements "county" and "state," which are in the Federal Facility Data Standard, are similar to the data elements "county name" and "state name," which are in the Facility Data Standard. However, "county" and "state" in the Federal Facility Data Standard refer to owner/operator issues while "county name" and "state name" in the Facility Data Standard refer to location.				
The SIC/NAICS Data Standard is related to the Federal Facility Identification Data Standard. SIC and NAICS codes can be assigned to federal facilities. Some SIC and NAICS codes are specific to federal facilities.				
<i>Relationships within the Federal Facility Identification Data Standard</i>				
Facility Operation Type Name has an associated Facility Operation Type Code				
Facility Ownership Type Name has an associated Facility Ownership Type Code				
Facility Land Ownership Name has an associated Facility Land Ownership Code				
Facility Responsible Agency Name has an associated Facility Responsible Agency Code				
Facility Responsible Agency Type Name has an associated Facility Responsible Agency Type Code				
Facility Management Type Name has an associated Facility Management Type Code				
Federal Facility Identification Number must be associated with Facility Identification Number Context Name				
Facility Responsible Agency Name or Code must be associated with Facility Responsible Agency Type Name or Code.				
Federal Facility Identification Information				
1	Federal Facility Indicator Code	The code identifying facilities owned or operated by a federal governmental unit.	Permissible Values Y (Yes) N (No)	Alphanumeric (1)
